

Fortune Delight®

Flushes fats and impurities

Fortune Delight is one of Sunrider's whole food beverages. It assists the body's own natural elimination process, helping to remove impurities that may be stored in fat cells. It nourishes and supports all the organs of digestion and assimilation. It helps to put the body in an alkaline state, along with being completely pure, nothing artificial, as with all Sunrider foods.

Cleansing is the body's natural process of ridding itself of waste products that are produced by digestion, eating processed foods, muscle exertion, air pollution, etc. We can eliminate some toxins from entering our body by making good choices, but some things are out of our control. Sometimes these pollutants get stored in the cells instead of being eliminated. Fortune Delight supplies the body with multiple whole plant nutrients, which supports your cells in health and cleansing. Drinking Fortune Delight daily is a great way to keep toxins from building up...no need to do a heavy detox once or twice a year! It's healthier and safer on the body to detox 'daily' and does not stress the organs like periodic detoxifying rituals.

Similar to Sunrider's Calli in providing antioxidant benefits, Fortune Delight is very concentrated and comes in powder form. Catechins are naturally occurring polyphenol chemicals found in *Camellia sinensis*, the primary ingredient in Fortune Delight. These antioxidants have been shown to be extremely effective in absorbing damaging free radicals.

Fortune Delight hydrates at the cellular level and provides nutrients which supply 'natural' energy for longer endurance. It is a great replacement for typical sports drinks (which usually have artificial ingredients and forms of sugar). When combined with Sunrider's Vitafruit, ElectroSport, Evergreen, SunnyDew or Sunectar, it becomes an excellent and *extremely healthy* cold power sports drink for athletes (or anyone wanting those benefits). Fortune Delight can also be a great part of your weight management program due to its fat flushing advantages.

Delicious hot ('drinkable' hot, but never boiling!) or cold. Fortune Delight is available in five flavors - Regular, Peach, Lemon, Raspberry and Cinnamon.

Ingredients:

Camellia Extract, Chrysanthemum Flower Extract, Jasmine Extract, Lalang Grass Root Extract. Natural fruit flavors.

How to Make Fortune Delight:

To open, tear down slightly from slit at end, then tear across. Stir, or shake, a 3g pack in slightly hot or cold water in a glass or sports bottle. Add drops of SunnyDew or Sunectar to taste. Ice can then be added for a wonderful cold drink. Flavors can also be mixed. This is a very easy herbal beverage that's delicious, healthy, refreshing and will assist in replacing any negative drinks such as soda, etc. The value of pure nutrition in this concentrated healthy antioxidant drink can't be beat! Nothing in this goes to waste in the body, it is utilized and highly effective. All ages love it. Minimum usage is 3 - 4 packets a day, more if desired, you can drink as much as you want.

Refrigerate unused portions tightly covered and drink within 24 hours. Never microwave. Can be purchased in larger packets to mix in pitcher sized containers.

Due to a poor diet, some people 'may' initially experience slight nausea (this is rare). This occurs as the body eliminates heavy toxic or mucus buildup in their system. Fortune Delight rids yeast colonies and cleanses negative matter from the digestive tract. This is only temporary 'house cleaning'...be patient...it's a good sign that the body is releasing toxins. The body must rid the bad to make way for the good! If one experiences discomfort, it can easily be remedied by diluting the Fortune Delight for a short while, and also drink more water.
