2.	<b>Description</b>												
	<b>Essential Oils</b>												
	Sunrider Sunbreeze Oil is made from the pure essential oils of flowers and herbs.												
	<b>The Real Thing</b>												
	You can't always be sure of what you are getting. Some oils and balms contain <i>synthetic</i> oils. Synthetic perfumes, which are made from chemicals and have an inorganic base, were created in the 1800's. Because it was cheaper to make fragrances artificially than to extract essential oils from plants, chemical scents began to replace natural ones, and people forgot essential oils possessed healing properties.												
	<b>SUNBREEZE OIL IS MADE FROM ONLY PURE ESSENTIAL OILS</b>												
	Sunbreeze is a soothing, penetrating oil that not only eases pain, but also aids the body in its natural healing process for external injuries. The Sunbreeze Oil is based on a formula recorded in the herbal manuscripts of the Chinese Emperors. The formula was originally developed by the temple priests to aid their recovery from injuries sustained while practicing extremely rigorous martial arts. All ingredients work in synergy. That is, the effects of the combination of all the ingredients are much more effective than those of any individual ingredient.												
3.	<b>Summary of Benefits</b>												
	Following are just some of the ways in which Sunbreeze is used:												
	Rub on the temples, forehead and/or the back of the neck for:

	A couple of drops of oil on a Q-tip applied to the ear for infections, water-logging and wax buildup works wonders. This may also relieve motion sickness and ear pain while flying.												
	Avoid getting it in your eyes or on very sensitive areas ( <i>You know where I mean!</i> ). The essential oils provoke a brisk sensation, which may be either warm or cool.												
4.	<b>Suggested Amounts</b>												
	Gently rub a few drops of Sunrider Sunbreeze Oil on the temples, on the back of the neck at the base of the skull, or onto the shoulders. You may experience the soothing, temporary relief of headache, muscle tension or drowsiness. Gently rub a few drops of oil on the skin and massage into any area of tenderness, or any part of the body as needed for congestion, insect bites and stings, and burns. For soothing a sunburn, blend a drop or two of the oil with Kandesn Hand and Body Lotion. Some people rub Sunbreeze on the stomach to soothe upset stomach. Sunbreeze is perfect for those all-over rubdowns. Combine a few drops of oil with Kandesn Hand and Body Lotion and experience the relaxing sensation of soothing, tingling warmth all over your body.
